THE LAST DAY'S SESSION

OF THE METHODIST EPISCOPAL CONFERENCE IN NEW YORK.

A Colored Delegate Sat Down On—Report of the Committee on Ecumenical Councils—Self-Supporting Foreign Missions Advocated—Adjourned.

New York, May 12.—The Methodist Episcopal conference opened its last day's session, with Bishop Bowman presiding. Delegate Spencer, of the committee on consolidation, reported progress and asked for more time. Time was granted.

Delegate Knox, colored, said he wanted it understood that all the colored delegates went solid against the admission of the women. Bishop Bowman told him to sit down.

SCENE FROM ONE OF THE BOXES.

Rev. Dr. Thoburn, of the Bengalee conference, tendered a report asking that the peninsula of Malacca and the Malay islands be constituted a new mission, to be called the Malaysian mission. The report was adopted with an amendment referring it to the committee on missions.

The committee on ecumenical councils next presented a report. The committee has conferred with delegates of the British and Irish Wesleyan conferences, and the Methodists of Canada, and it has determined that the ecumenical conference be held in the United States in 1891, at such time and place as committee will determine.

Rev. Dr. Steele, fraternal delegate of the Methodist Episcopal church south of Louisville, Ky., was introduced to the house and allowed a seat on the platform.

William McIntyre, of the Austin conference, presented a report regarding the union of the church north and south. The report advocates the union of the churches and proposes that a committee of the church north should meet a similar committee of the church south for the purpose of conferring on the subject and to make a report to the next ensuing general conference of the church. The matter was referred to the committee on the state of the church.

Rev. J. C. Jackson, of the central Ohio conference, tendered a memorial advocating the organizing of self-supporting foreign missions. Referred to committee on missions.

A few more memorials of lesser importance were read and referred, and then the conference adjourned.

FLOODS CONTINUE.

Galena, Illinois, and Dubuque, Iowa, Partially Inundated.

GALENA, Ill., May 12.—Commerce street in this city, next in importance to and adjoining and parallel with Main street, as a business thoroughfare, is now only navigable by skiffs, and the water in all the stores on Main street, is nearly to the top of the cellars, and is liable to flood the first floors of many buildings within the next twenty-four hours, should the rise continue. The Chicago & Northwestern trains on the Galena & Madison division are compelled to stop at Cambelick's furnace, four miles from the city, to and from which passengers are transferred in hacks.

At Dubuque.

DUBUQUE, Iowa, May 12.—The river continues to rise and is now eight inches below the high water mark of 1880. The situation is unchanged, except that the railroad tracks are being covered and trains move cautiously. The stores on the levee have five inches of water on their first floors and more factories have been obliged to suspend operations. Several hundred dwellings are surrounded by water and the occupants are obliged to move out. Several of them have been wrecked or floated off. The city is filled with idle men. The river is now nearly on a stand, although the rain continues.

A Cyclone's Strange Action.

AKRON, O., May 12.—Residents of Hudson, eight miles north of here, were terribly startled Wednesday night by a roaring sound, which came in a great wind storm, driving a regular cyclone cloud before it. On the farm of G. H. Darrow the cloud struck the earth and literally carried away the loose ground of several fields that had been prepared for corn. The air was filled with sand to a height of 200 feet, and presented a very strange sight as this section of land was carried away by the strange force. Damage was also done to fences, trees and small buildings.

BEATRICE, Neb., May 12.—Gen. S. W. Colby, of this city, commander of the Nebraska National guard, has purchased of U. S. Grant, Jr., the Arabian stallion Linden Tree. Linden Tree and Leopard, another Arabian horse, were presented to Gen. Grant at Constantinople in March, 1879, on his trip around the world, by the sultan of Turkey. Linden Tree is now at Washington, and will be shipped in a few days.

Four Italians Drowned.

BALTIMORE, Md., May 12.—The temporary bridge used in the construction of the new iron bridge over the Thames river, gave way yesterday, precipitating six men into the water. Alex. Waterworth and William Lamber were instantly killed.

THE TARIFF.

Scott, of Pennsylvania, Makes a Lengthy Speech—Washington Notes.

WASHINGTON, May 12.—Mr. Scott, of Pennsylvania, made a lengthy speech in the house in defense of the Mills tariff bill. Among other things he said:

"I can only compare the average rates of duties under the existing tariff with what they would be under this bill if it should become a law, namely, the average ad valorem duties on dutiable goods under the existing tariff of 47.7 per cent. ad valorem and the average under the proposed bill of 40 per cent. ad valorem. This shows a reduction under the present bill equal to 7.7 per cent. ad valorem. Of \$53,730,447.22 reduction of duties on imports under the proposed bill, should it become a law, \$22,189,505.48 are derived from articles placed upon the free list, leaving the sum of \$31,540,941.74 as the gross reduction made, or proposed by the committee, applicable to all our varied industries; and yet the majority of this house and of the committee are charged with being free traders."

In closing Scott said: "We are here, sir, we, the majority of the ways and means committee and of this house—in defense of American industry. We alone offer it protection; we seek alone the independence and aggrandizement of domestic labor by liberating it from unnatural restraints and allowing it the undisturbed possession and the complete enjoyment of its own earnings."

Mr. Scott concluded his speech at 2:50, having spoken for two hours and a quarter. He took his seat amid loud applause from the members and gallery occupants. Many of the members surrounded him to shake his hand and offer congratulations. Among the many who thus greeted him were Postmaster General Dickinson and Senators Cokes and Call, who had listened to the speech during the last hour.

Mrs. Cleveland occupied a seat in the speaker's private gallery during the early part of the speech.

Patents to Be Put in Active Use.

WASHINGTON, May 12.—A joint resolution has been introduced in the senate declaring that all patents granted are for the active use of the public, subject to the rights of the inventor, discoverer, or assignee, who shall receive the consideration for the use thereof, must be put into active use. Failure to do so within five years from the date of issue shall be held to be an abandonment of it and thereafter the article patented shall be public property, and the patent ipso facto void. Corporations and combinations for the control of articles patented are prohibited under the pain of a fine not less than \$1,000 nor more than \$10,000, and by imprisonment for not less than six months. The attorney general is charged with the enforcement of the law and proceedings are to be summary.

New Silver Certificate.

WASHINGTON, May 12.—The secretary of the treasury has approved a new design for a \$20 silver certificate. The face of the note has in its center a fine portrait of the late Secretary Manning, to the right and left of this vignette are figures representing labor and prosperity. The note is decidedly the finest of the series of silver certificates, and is a very artistic specimen of note engraving. The back is of green, lightened by tracery designs and scroll work, beautifully executed. The preparation of the new certificates will soon be commenced.

Appropriation for an Air Ship.

WASHINGTON, May 12.—The committee on acoustics and ventilations, has agreed to report the Dunham bill, making an appropriation of \$150,000 to enable A. De Baussett to build an air ship, to convey passengers and freight through the air, and for other purposes.

Washington Notes.

The senate has passed the bill to authorize the executive departments to send exhibits to the Cincinnati exposition.

The senate privileges and elections committee devoted an hour's consideration today to the Turpie case, and decided that Senator Turpie is entitled to his seat.

The department of state has learned from Minister Lewis that Portugal has imposed an additional duty of 25 to 30 per cent. on cereals and flour not shipped previous to the 4th instant.

The house committee on Pacific railways has decided to begin next Friday the formulation of a bill dealing with the indebtedness of the Central Pacific railway to the government. The Union Pacific bill already reported will be taken as a basis for the committee's action.

The Democratic members of the ways and means committee this morning took up the consideration of the various amendments to the tariff bill, that have been sent to the committee. The clerk was directed to classify and have the amendments printed to that they could be considered and reported on forthwith.

George C. Ellison testified before the Indian traders' committee that his conduct while at the Osage agency was beyond reproach; that as he was a Republican his appointment by Commissioner Atkins must have been without political significance. He said he had acted while out there as correspondent of a newspaper syndicate, but declined to give the names of the papers.

Died on a Passenger Train.

HARVARD, Ill., May 12.—Commodore Kittson, a passenger on an incoming train to this place, died between here and Hartland last night. He was in his usual good health when he left the smoking car to enter the dining car, but dropped dead immediately after entering the car. Mr. Kittson was about seventy-five years of age and an influential and wealthy citizen of St. Paul, where his remains were sent last night. Heart disease is supposed to have been the cause of his death.

A Temporary Bridge Gives Away.

GLENCOE, Ont., May 12.—The temporary bridge used in the construction of the new iron bridge over the Thames river, gave way yesterday, precipitating six men into the water. Alex. Waterworth and William Lamber were instantly killed.

TWO CARS TELESOPED.

A SERIOUS COLLISION ON THE ERIE, IN NEW JERSEY.

An Express Train Going at Full Speed Crushes Into a Local at a Standstill. None Killed, But Several Seriously Hurt. A Complete List of the Injured.

JERSEY CITY, N. J., May 12.—A bad accident occurred near West End station on the Erie railway, just outside Bergen Hill tunnel. A way train from Newark was at a stand still about three hundred yards from the western end of the tunnel, waiting for a main line train to pass through, when the Orange express came rushing around the curve on the branch line.

The heavy locomotive of the express cut its way into the local, piling the cars on top of each other and completely telescoping the two rear ones. The last car was completely crushed and splintered, fragments of timber and broken glass inflicting ugly wounds on the passengers. The locomotive of the express was partly thrown from the track and the forepart of the boiler broken in.

The following is a corrected list of the injured:

Theodore Ball, No. 27 Kearney street, Newark, N. J., spine injured.

John J. Stevenson, of Franklin, N. J., leg broken.

D. D. Hobart, of Franklin, N. J., leg crushed.

S. Fitzmaurice, of Essex, N. J., hands injured.

P. Browler, of Essex, N. J., leg and chest badly hurt.

O. Burling, of Woodside, head hurt and leg bruised.

J. Hochstetser, of Franklin, N. J., leg bruised.

James Wendel, of Newark, head bruised.

John Clark, of Franklin, N. J., internally injured.

H. Hobart, of Franklin, arm bruised.

Ball and Stevenson are not expected to recover.

A WARNING TO OTHERS.

The First Violator of the Owen Law in Cincinnati Sentenced.

CINCINNATI, May 12.—A large crowd filled the police court when Judge Caldwell overruled the motion for a new trial and sentenced Henry Munzebrook, the saloonkeeper found guilty of violating the Sunday closing law. When Munzebrook arose for sentence his manner indicated that his humiliating position affected him. There was moisture in his eyes, and he nervously worked his hat in his hands.

Judge Caldwell's sentence was as follows: "You have had a fair and impartial trial. A jury has found you guilty of violating a statute. Whatever may be your opinion of the law, yet it is the law of your state, entitled to respect, and you must obey it. You have seen fit to violate the law openly, flagrantly, and upon you and you alone must rest the responsibility. The jury did nothing but their duty as citizens and jurors. You can blame only yourself. The jury has petitioned for mercy, and it shall be respected. The sentence of the court is that you pay a fine of \$50 and costs and go to the workhouse for ten days and pay the costs of the prosecution."

When his sentence was passed the prisoner sank back into a chair at the attorneys' table. A tap on the shoulder by Court Officer Brennan, with the remark that he was in the road and a significant gesture towards the prisoners' bench, staggered Munzebrook for a moment. A look of disgust passed over his face, he hesitated, then slowly walked towards the bench crowded with the scum of humanity. He could not sit with them. With a sigh he took a chair at the end of the bench. In a few moments the prisoner was taken down stairs and locked up.

Miller Outcalt asked the court to suspend the execution of the sentence until a petition in error could be filed in the common pleas court. This the court refused to grant.

There was considerable surprise at the sentence and divided comments as to its severity.

Mayor Smith has issued an order to Superintendent of Police Deitch that the officers shall be instructed to arrest on the spot, in their respective districts, all saloonkeepers who violate the Owen law next Sunday.

At Columbus.

COLUMBUS, O., May 12.—The proprietors of the People's Casino and Eichenlaub's theaters gave a Sunday performance. Yesterday Judge Pugh tendered L. Cain, manager of the People's, a benefit which netted him \$75 fine and a thirty days' pass to the county jail. The others are billed to appear as soon as the boards can be cleared for occupancy.

Warned to Leave.

CORYDON, Ind., May 12.—Peter Russell, of Elizabethtown, has received a letter through the mails which purports to have been written by the White Caps, and which directs Russell to at once remove his family from the county or suffer the consequences. The cause of complaint is that Russell has two daughters of questionable character, and that he has been running a house of ill-repute. He denies the charges and defies the White Caps to carry out their threat. However, he doesn't think the White Caps sent the letter, but believes that it was written by some of his enemies.

A. O. H. Officers.

NEW YORK, May 12.—The convention of the Ancient Order of Hibernians adjourned after electing the following National officers: William Sheridan, of Jersey City, National delegate; Lawrence Kelly, of West Chester, National secretary; and Thomas F. Fitzpatrick, of this city, National treasurer.

A Queer Boycott.

NEW YORK, May 12.—The Progressive Cabinetmakers' union last night placed a boycott upon the Pioneer, of Chicago, an Anarchist publication, because it allowed itself to be frightened to keeping its actions within the domain of law.

A Pupil of Pasteur.

SAN ANTONIO, Tex., May 12.—Information that Dr. Arthur Spahn will establish in this city a hospital for the treatment of hydrophobia after the Pasteur method, is received with great satisfaction.

SPORTING NEWS.

Teemer Beats Hanlan's Three-Mile Record. The Walkers—Notes.

WORCESTER, Mass., May 12.—Champion Teemer Wednesday proved that he is more than a man of wind. Al. Hamm and Jerry O'Leary put up the stakes on Monday at the further end of the College course, and everybody knew that this was to let Teemer have a dash at Hanlan's record, which stands at 19 minutes 23 seconds, for three miles. There were people stirring in the morning at the lake when the champion got into his shell and, accompanied by Hamm, proceeded up the lake to the starting point. The veteran boatman took up his position at Regatta point. He glanced this way and that, and, finding nobody within sight, gave the signal to Teemer, who dashed off at a lightning speed.

Hamm accompanied and coached him for a mile and then let the champion go on alone and complete the distance. This Teemer did, turning the stakes in 9 minutes and 80 seconds. After rounding the stake he went at it, and, forging his shell through the water at terrific speed, he finished the distance in exactly 19 minutes and 4 seconds. This knocks Hanlan's record of 19 minutes and 23 seconds to bits, and is within a solitary second of the champion's boast that he could beat the Toronto sculler's record by twenty seconds.

The Walkers.

NEW YORK, May 12.—Guerrero is doing well. Thursday he covered 106 miles and was just fourteen miles behind Littlewood at midnight. However, Littlewood increased that lead during the night, when Guerrero was resting, and at 6 o'clock in the morning was eighteen miles ahead of Guerrero. The only event of any importance during the night was the passing by Noremac of Hughes.

Littlewood's lead over Guerrero at 9 o'clock a. m. was nineteen miles and three laps, and it is not probable that the latter will be able to overcome the lead. The race between them, however, to the finish promises to be exciting, as both are in good condition. Littlewood is traveling at a steady gait of five miles an hour, with Guerrero right at his heels.

At 12:45 p. m. Dillon announced his retirement from the race. There was evidently nothing the matter with him but laziness and lack of heart.

At 2 p. m. the score stood: Littlewood 406, Guerrero 475, Herty 402, Golden 432, Noremac 432, Hughes 413, Dillon dropped.

At 4 p. m. the score was Littlewood, 500; Guerrero, 481; Herty, 466; Golden, 434; Noremac, 437; Hughes, 417; Campana, 314.

OHIO WOMAN SUFFRAGISTS.

They Condemn Governor Foraker and the Methodists—The Election.

CHILLICOTHE, O., May 12.—The state committee of the woman suffragists adopted resolutions asking for the right of suffrage, equal pay for equal work, and condemned as discourteous and unworthy an American citizen the refusal of Governor Foraker to give consideration in his annual message to the women of the state.

The following were enthusiastically indorsed:

"RESOLVED, That we deprecate the National extravagance consequent upon increase of the civil pension list as an unjust mortgage upon posterity and the industries of our country."

"RESOLVED, That we condemn in unqualified terms the action of twentieth general conference of the Methodist church for so misinterpreting the law of the church as not to admit women delegates."

The election of officers of the state association resulted in the choice of the following: President, Martha Ellwell, of Willoughby; first vice president, Mrs. Francis M. Casement, of Painesville; second, Mrs. A. L. Webster, of Oberlin; third, Mrs. Mary G. Williams, of Kirtland; fourth, Mrs. M. J. Barker, of Toledo; fifth, Mrs. Sarah J. A Lawsuit Results in Murder.

ALTA, Ill., May 12.—Henry Miller and William A. Anderholt, two farmers living about four miles from Ceecher City, Ill., had a lawsuit yesterday over some small matter. Anderholt beat Miller in the suit, and Miller became so enraged that he went home and shouldered his gun and marched to Anderholt's house and shot him dead. He also went to McKenzie's house, who seemed to be on the side of Anderholt, and shot him, but the latter will recover. Miller is still at large, but the sheriff of Fayette county and a party are in hot pursuit of him. Miller also set fire to his house, which burned to the ground. He is not supposed to be of sound mind.

Be Consistent.

The Republicans are not very consistent in the cry of "free trade" which they are trying to use against the Democrats. It is well to remember in the first place that Cleveland's message and the Mills Tariff bill do not contemplate "free trade." A just and equitable revision of the burdensome war tariff is what Democrats are seeking to bring about.

The free wool clause seems to be the objectionable feature of the bill as far as the Republicans are concerned, and it would be well for them to remember what Grant and Arthur advocated as to this much-vexed question. In his last message General Grant said:

Those articles of manufacture which we produce a constituent of, but we do not produce the whole, that part which we do not produce should be entered free also. I will instance fine wools, dyes, etc. These articles must be imported to form a part of the manufacture of the higher grades of woolen goods.

If Cleveland is a "free trader" so was General Grant. But the Republicans never raised the cry of "free trade" against Grant, and their action now shows how inconsistent they are.

It Was Not Approved.

The trouble and worry of the City Council over the amendments to the charter, and "Senator" Wood's trip to Frankfort was all for naught. The bill to secure the desired amendments was passed by the Legislature during its closing days, but the Governor failed to approve it.

He endorsed his objections to the bill as follows:

"Unintelligible without referring to the charter, the date of which is not noticed."

The bill transferring Rowan County to the Mt. Sterling Judicial district was passed by the Legislature.

Two distinguished Kentuckians will participate in the centennial of Presbyterianism at Philadelphia, this month—Colonel Bennett H. Young and Hon. W. C. P. Breckinridge.

At the election in Millersburg this week Charles Howard (Republican) was chosen Mayor; James Collier (Republican) Councilmen of the Fifth ward. The other four Councilmen and Chief of Police are Democrats.

The Chicago Tribune, the leading Republican journal outside of New York, is an ardent tariff reform paper. All Republicans are not protectionists. Some of them are sensible enough to see that the Democrats are on the right side of this great question.

EDITORS, as a rule, are kind hearted and liberal. One of our exchange tells of a subscriber to a certain paper, who died and left four years subscription unpaid. The editor appeared at the grave just as the coffin lid was being fastened down for the last time, and threw in a linen duster, a thermometer, a large palm leaf fan and a recipe for making artificial ice.—Bourbon News.

The Maysville BULLETIN nominates Cleveland and Buckner for President and Vice President. The Governor is on the wrong side of the river, unfortunately, to nominate for Vice President, but we dare say that there's not a better man in the Union. However, he is on the right side of the river to be a United States Senator, and the boys will hustle him through in a jiffy when the time comes.—Bourbon News.

One Year for Cattle-Stealing.

"We the jury, find the defendant guilty as charged in the indictment and fix his punishment at confinement in the penitentiary for one year." Such is the verdict rendered yesterday afternoon in the case against Arch Winters, who was on trial for cattle-stealing. He has resided within a few miles of where the cattle were stolen, but it was about one year after they were taken before the owner J. M. Walton, of Germantown neighborhood, suspected Winter, as the thief.

Sudden Death at Ewing.

R. T. Carr, of Ewing, died very suddenly yesterday afternoon. He was apparently in good health five minutes before he expired. Some days ago he met with an accident resulting in a fractured knee-cap, and had been confined to his bed on that account. He was doing well, however, and was not sick in the least.

The deceased was an uncle of R. A. Carr, Miss Mattie Carr, and Owen Carr, of this city.

Inherited Diseases.

In the realm of disease the facts of inheritance are most numerous and are daily accumulating. Here, also, they become terrible, fatal and overwhelming. No fact of nature is more pregnant with awful meaning than the fact of the inheritance of disease. It meets the physician on his daily rounds, paralyzing his art and filling him with dismay. The legend of the ancient Greeks pictures the Furies as pursuing families from generation to generation, rendering them desolate. The Furies still ply their work of terror and death, but they are not now clothed in the garb of superstition, but appear in the more intelligible but no less awful form of hereditary disease.

Modern science, which has illuminated so many dark corners of nature, has shed a new light on the ominous words of the Scriptures, "The sins of the fathers shall be visited upon the children unto the third and fourth generation." Instances of hereditary disease abound. Fifty per cent. of cases of consumption, that fearful destroyer of families, of cancer and scrofula, run in families through inheritance. Insanity is hereditary in a marked degree, but, fortunately, like many other hereditary diseases, tends to wear itself out, the stock becoming extinct. A distinguished scientist truly says: "No organ or texture of the body is exempt from the chance of being the subject of hereditary disease." Probably more chronic diseases, which permanently modify the structure and functions of the body, are more or less liable to be inherited. The important and far-reaching practical deductions from such facts—affecting so powerfully the happiness of individuals and families and the collective welfare of the nation—are obvious to reflecting minds, and the best means for preventing or curing these diseases is a subject of intense interest to all. Fortunately nature has provided a remedy, which experience has attested as infallible, and the remedy is the world-famous Swift's Specific, a pure vegetable compound—nature's antidote for all blood poisons. To the afflicted it is a blessing of inestimable value. An interesting treatise on "Blood and Skin Diseases" will be mailed free by addressing

SAYS the Covington Commonwealth: "Another large party of men have been started to work this week making the approach to Huntington's bridge. An immense amount of material is on the ground, and more arrives every day. The work is being pushed energetically in all its parts."

MRS. ELIZABETH SPENCE was run over and killed by a construction train on the Maysville and Big Sandy Railroad near Greenup one day last week. She was very old and deaf and attempted to cross the track in front of the train. The Coroner's jury exonerated the railroad hands for all blame.

SIR KNIGHT E. D. MCGUIRE, who had charge of the banquet room, Masonic Temple, during the conclave this week, resumed his duties, as steward of the steamer Telegraph, last night. Mr. McGuire has been passing Maysville four or five times a week for the past thirty-seven years but this was his second visit here.

THE mystery surrounding the disappearance of Samuel Hiett, a young farmer living near Minerva, was solved a few days ago, when his father received a letter from him in Alabama, in which Hiett states that he is traveling with a patent medicine man. His relatives had given him up as dead, thinking he had been drowned several months ago while on his way home from Ripley.

SAYS the Flemingsburg True Blue Democrat: "Will Dudley sent down to the Maysville track Monday, the colt Pandarus, purchased some time ago by Gibson & Dudley, at Lexington. The colt will be put in training. Before Mr. Dudley's partner started with him from Nicholas, James B. Clay, of Paris, the owner of Pandarus' dam, suggested that if they would rather have \$1,800 than the colt they might send him to Bourbon. The offer was declined. The colt cost \$1,050."

THE Dover News says: "We understand that the railroad people will rush things from now on, below Maysville, and that the road will be finished and the cars running, the 4th of July, to a point as near Newport as is possible to finish it by that time. From this point to Cincinnati fast passenger steamers will be run in connection with the trains, and will carry passengers to the opening of the Exposition. These steamers will connect with the road until it is finished to Newport, which will probably be done before the Exposition closes."

AUGUSTA is said to be alive with mad dogs. A special says that no less than four remain at large, after futile efforts to kill them. The citizens are afraid to venture out after dark.

A SPECIAL from Nicholasville says whisky belonging to S. J. Greenbaum was attached Thursday by the Sheriff for taxes on withdrawals and failure to report every three months to the County Clerk for county purposes. A fine was imposed for each offense. A similar process by distraint warrant, sworn out by the County Attorney, was served on the E. J. Curley & Co. distillery for taxes amounting to \$400.

An Excellent Company.
Jennie Calef and her excellent company appeared again last evening before another crowded house. This charming little actress is certainly deserving of the success she is meeting with. Her rendition of "Little Muffets" is nightly greeted with storms of applause and calls before the curtain. Last evening Miss Calef received several handsome floral tributes. Miss Calef is certainly an original soubrette, and invests her character with a peculiar vein of humor, which keeps her audience in constant roars of laughter. Her supporting company is one of the best we have had here, and we predict crowded houses the remainder of the week. All wishing to enjoy an evening of laughter should certainly see "Little Muffets."—Cincinnati Enquirer.

At opera house next Monday and Tuesday nights. See "ad" for prices of admission.

Robinson's Big Ten Show Combination.

The great and marvelous Calabrian Orondo Troupe, from the Imperial Russian Gymnasium in Moscow, are in the country, and traveling with John Robinson's Mammoth Three Ring Show. They are wizards of wonder. The ladies turn somersaults in flying from one trapeze to another, sixty feet in mid-air, and one actually turns a triple somersault into the arms of the other, on the extreme opposite side of the vast pavilion. The daring acts of these brothers and sisters are said to outrival all that Leotard, the Ravels or the Hanlons ever accomplished.

Robinson's big show will pitch its tents in Maysville Monday, May 28, and give two performances, afternoon and night. Don't forget the date and don't fail to be on hand.

THE ROUMANIAN REVOLT.

THE GOVERNMENT SUCCEEDS IN SQUELCHING IT.

But There is No Certainty of How Long it Will Last—The Czar's Plan—Irish Bishops Adhere to the Decree—Archbishop Walsh's Statement—Foreign News.

LONDON, May 12.—Although it has been officially reported that the recent revolt in Roumania is over, and that the government has succeeded in establishing peace once more, it is by no means certain how long such a condition of affairs may last. The country is just now under the strictest military surveillance, and should the least sign of a renewal of trouble occur, it would be firmly suppressed.

The Russian agents who were sent to Roumania to foment the revolt have not, however, finished their work according to the plans of their royal master, and consequently they will seek fresh opportunities of stirring up the country. As soon as the military vigilance is relaxed we may hear of further trouble and riots.

The plan is said to be to select some remote district, not easily reached by railway lines, and there to inflame the minds of the peasants, who have already been educated to the belief that they are imposed upon.

The district selected will be near the Russian frontier, as the czar intends, when the trouble spreads, to have a reason for interfering, under the pretext that his domains and the lives of his subjects are in danger. He may find it necessary to send forces to that point, and if possible he will deem it imperative to just step over the border and settle things for the Roumanians. This is but a part of his plan to get nearer Constantinople, which is his objective point.

If the rest of the European powers can only be made to believe that the czar is simply exercising his right to protect himself or to assist a neighbor, the present reported plan may prove a valuable preliminary step towards the accomplishment of his desires.

If, however, the plan should not succeed, and there is every chance of it not doing so, since the eyes of Europe have been sharply open for the designs of Russia, a war or the beginning of one, might be the result. The Roumanian press, instructed by the premier, has withheld in a large measure the truth as to the extent of the late result, and has minimized as far as possible the reports of any approaching danger.

The Irish Bishops.

LONDON, May 12.—A dispatch from Rome to the Chronicle says the Irish bishops have notified the Vatican of their adherence to the papal rescript.

This puts an end to the plan of campaign and boycotting in Ireland.

Archbishop Walsh, however, is careful to draw the distinction between the true objects of the Nationalist movement, as represented by the National league, and the mode of procedure known by the name of the plan of campaign. The denunciation of the latter on the grounds of morality and religion by the pope he fully approves, and maintains that it is entirely outside of the political principles involved in either the National movement or maintained by the National league. He says of the rescript:

"It is a decision on a question, not of politics, but morals. As such it will be received by our Catholic people as every decision which has ever yet been pronounced by the holy see in reference either to faith or morals has been received by them. If doubts or controversies should arise as to its meaning or intent, these will speedily be solved by the bishops of Ireland. Or, if it should be necessary, by the holy see itself. But the question of morality being thus decided the operation of the recent action of the holy see is at an end. The Irish people, whether at home or abroad, will, I trust, accept my assurance that neither the Nationalist movement nor the National league is in the smallest degree injuriously affected by the recent decree."

All Seem to Think War Inevitable.

ROME, May 12.—The Vatican has received a dispatch from the papal nuncio at Paris stating that the disputes between France and the Vatican have been satisfactorily settled.

The diplomacy of the European powers everywhere seems to be conducted upon the assumption of inevitable war. Among the most energetic is Pope Leo, who not only sees Catholicism in the east threatened by the Greek church should Russia succeed in planting herself at the gates of the Bosphorus, but in exegencies that may arise out of an European war there is some hope of regaining the estates of the church from the Italian government. Therefore it is that he endeavors to make England the church's friend in the east and to be on good terms with France near home. The attempt to attain an entente cordiale with Russia on church affairs a few weeks ago failed.

Goy and Bernhamer.

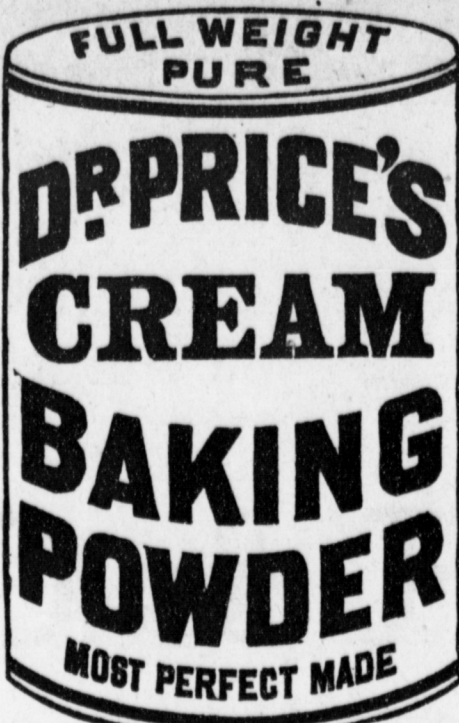

INDIANAPOLIS, May 12.—It was authoritatively reported here Thursday night that Judge Woods had received an intimation from Washington that the decision in the election conspiracy case against Coy and Bernhamer, the Democratic politicians convicted of tally-sheet frauds, would be reversed by the United States supreme court, and in consequence he postponed the argument on the third trial of their accomplices, which has been in progress for several days. Coy and Bernhamer, who are now in jail here, are very jubilant over the hopeful prospects for their release.

A Pittsburg Fire.

PITTSBURG, May 12.—At 2:30 o'clock this morning Oyster & Short's planing mill, Niceross & Company's iron roof paint works and two frame buildings on South Twenty-third and Jane streets, were totally destroyed by fire. Loss on planing mill and contents, \$67,000; insurance, \$20,000. Loss on paint works, \$10,000; no insurance. Loss on dwellings and contents, \$7,000. D. O. Cunningham's glass house adjoining the burned property narrowly escaped destruction.

A Dog's Death Grip.

SHELBYVILLE, Ind., May 12.—Leonard Powell, one of the wealthiest farmers of the county, six miles east of here, is suffering terribly from a bite inflicted by his dog. The brute was run over by the wagon driven by Mr. Powell, and crawled under the barn, its back being broken. While trying to pull the dog out it sank its fangs into his right hand, the teeth meeting, and died without letting go. The brute's jaws were unclosed with great difficulty, and Mr. Powell's hand and arm are terribly swollen, and blood poisoning is feared.
